-  <https://www.linkedin.com/in/mohammad-talha-92b45a220/>

## SKILLS

- Python
- javascript
- Flask & FastApi development
- Database(Sql/My Sql)
- Machine Learning
- Deep Learning
- Docker
- MlopsTools(mlflow/dvc)
- Numpy | Pandas | Matplotlib | Seaborn
- Sklearn | Keras | Tensorflow
- NLP

## LANGUAGES

- English
- Urdu

## PROFILE

### Projects

#### Whats app chat Analyzer:

- <https://mohammadtalha3-chat-analyzer-app-bpwmkc.streamlit.app/>
- **Student Performance Indicator(API)**  
<https://866d-39-41-139-50.ngrok-free.app/predictdata>
- Text Summerization

#### Few others:

- Quora Question pair (Kaggle Competetion)
- Potato Disease prediction
- Next word prediction

### EXPERIENCE

I am looking for a role to polish my skills in the real world here are my few projects i have done to gain experience

Academic Projects:

- Developed a chat Analyzer using techniques like data Analytics and some Nlp which helps my app in determining the sentiment Analysis and provides the user insights with proper visualization of chat
- I have experience using python popular frameworks like flask and fast api. Which used to make Api along with popular database mysql

## EDUCATION HISTORY

**BS(Computer Science)**

### Certificates

- Getting started with machine learning Algorithms
- Deep learning with tensorflow
- Introduction to Data Science
- Natural Language Processing with Attention Models
